

BODINI

CIELO ROJO 2018

Bodini showcases Mendoza's high-elevation mountain terroir for the fullest expression of fresh fruit flavors.

WINERY BACKGROUND: Bodini is crafted by winemaker Jimena Lopez and showcases fruit grown by a small estate winery in Mendoza, Argentina. Supporting Bodini encourages the tradition of independent, family-run vineyards and helping them express their unique wines. Bodini showcases grapes with the fullest expression of fruit.

A high-elevation desert, Mendoza has long sunny days, cold nights, low humidity, and natural irrigation from glacial snowmelt from the Andes Mountains. Bodini wines are fresh, fruit-forward, and a great introduction to the possibility of Malbec to deliver.

VINEYARD & WINEMAKING DETAILS: A high-elevation desert, Mendoza has long sunny days, cold nights, low humidity, and natural irrigation from glacial snowmelt from the Andes Mountains. The deep soil is a sandy-clay texture with the presence of large boulders originally from the Mendoza River thousands of years ago.

TASTING NOTES & FOOD PAIRING SUGGESTIONS: Layered with fresh fruit aromas on the nose. Black cherry, plum and black pepper on the palate. A broad wine with an elegant finish. Pair with roasted chicken, glazed short ribs, burgers, shredded beef tacos or grilled peppers.
