

A GIN SO RAREFIED
& PURE, IT IS LIKE
NO OTHER SPIRIT
ON EARTH

Dry, medium-bodied gin that balances undeniable intensity with fresh softness. Menthol notes of shiso partnered with yuzu citrus deliver lively acidity and energy, while a base of sansho, sesame seed and juniper provide a rich, long finish to savour.

WATENSHI GIN

Watenshi, Japanese Angel, is the world's most exclusive gin because it captures that which should not exist. It is the angel's share, that tiny fraction of spirit that escapes during distillation, but we found a way to preserve that elusive percentage. The process reveals intense flavour compounds that would otherwise have been lost to the heavens. Inside this expertly-crafted vessel, is more than just gin: it is the taste of transcendence.

Distilled by William Lowe, the most innovative producer of alcohol on the planet.
